ADVANCING ACCESS TO SAFE SANITATION: IMPOSSIBLE WITHOUT EFFECTIVE LAW

Alexandra Campbell-Ferrari, Executive Director
Africa Water Week 2018
1 November 2018

Advantages of a strengthened legal and regulatory environment in improving the sanitation sector

Clear direction

Measurable targets
and clear benchmarks

Transparency

Accountability

Investment

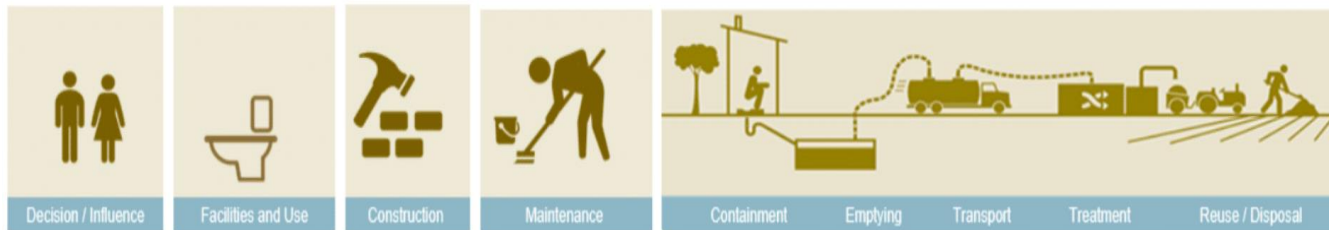

Civic engagement

The Africa Sanitation Policy Guidelines: How the CWSC is supporting the process

- Conducting innovative, rigorous research on sanitation law across Africa
- Publishing sanitation country profiles that examine the past and present to inform the future of sanitation law
- Providing technical advice on the policy guidelines

A taste of the Sanitation Country Profile

The **first pan-African water law platform**, with pilots in Cote d'Ivoire, DRC, Ethiopia, Kenya, Nigeria, Rwanda, Uganda, Senegal, South Africa, and Sudan.

RENEWAL: 10 Nexuses Explored

1. Agriculture
2. Sanitation, drinking water, health, and hygiene
3. Energy production and use
4. Natural and manmade disasters
5. Natural resources and services
6. Infrastructure
7. National security
8. Peace and conflict
9. The global economy
10. Governance and institutions

THE *BLUE Phone*

An innovative **water and sanitation legal technical unit** available to stakeholders to request information and critical research on water and sanitation laws and policies that allow countries to better understand, implement or revise their laws to achieve the targets and benchmarks set by the SDGs and other commitments.

Breakout
Session
Discussion
Questions

GROUP 1: What are the current challenges created by sanitation laws, regulations, policies or strategies in your country of residence or a country where you work?

GROUP 2: What tools or information related to laws, regulations, policies, or strategies would help to address the current challenges?

GROUP 3: In your opinion, what is needed to ensure governments have improved laws, regulations, policies and strategies for countries with poor sanitation?
