THE VISION & COMMITMENTS

To achieve universal access to adequate and sustainable sanitation and hygiene services and eliminate open defecation by 2030.

Focus on the poorest, most marginalised and unserved aimed at progressively eliminating inequalities in access and use and implement national and local strategies with an emphasis on equity and sustainability.

Ensure inclusive, safely-managed sanitation services and functional hand-washing facilities in public institutions and spaces.

Mobilise support and resources at the highest political level for sanitation and hygiene to disproportionately prioritise sanitation and hygiene in national development plans.

Progressively eliminate untreated waste, encouraging its productive use.

Establish and track sanitation and hygiene budget lines that consistently increase annually to reach a minimum of 0.5% GDP by 2020.

Enable and engage the private sector in developing innovative sanitation and hygiene products and services especially for the marginalised and unserved.

Ensure strong leadership and coordination at all levels to build and sustain governance for sanitation and hygiene across sectors especially water, health, nutrition, education, gender and the environment.

Establish government-led monitoring, reporting, evaluation, learning and review systems.

Develop and fund strategies to bridge the sanitation and hygiene human resource capacity gap at all levels.

Enable continued active engagement with AMCOW's AfricaSan process.
